

CAPABILITY STATEMENT

At REX Engineering, our mission is to provide the highest quality engineering services to our clients. Our team of experienced, highly-skilled engineers utilizes cutting-edge technology to provide clients with the most efficient and cost-effective solutions. Our commitment to collaboration and quality ensures that projects are completed to the highest standards.

With our integrated, multi-disciplinary approach, we provide Structural, MEP, and Connection & Construction Engineering solutions. Our engineering team has worked in nearly every US state and Canadian province, and many of our engineers have work stretching across the globe.

OUR CORE

1 Structural Engineering

Design the structure and all associated components for steel, concrete, and timber buildings.

2 MEP Engineering

Develop plans for all building utilities including air conditioning and heating, electrical, and plumbing systems.

3 Construction Engineering

Create solutions for steel erectors to safely and efficiently erect and construct buildings.

Licensed Engineers in **46 US States & DC**, and can obtain other state licenses
